Sofa Bed Frame Replacement

Build own platform bed. How to build a full size platform bed.

This step by step diy project is about full size platform bed frame plans. If you want to build a learn more about building a full size platform bed with a nice design, pay attention to this project. Follow the instructions and pay attention to the diagrams and build the wooden bed in just one weekend, even if you are a beginner when it comes to woodworking. Take a look over the rest of the project, to learn more about building the headboard. You should always plan everything from the very beginning, in order to prevent costly mistakes and to save time. Taking into account the basic design, this bed frame can match the style of any home. Mark the cut lines on the slats before making the cuts and use a jigsaw to get the job done. If you are looking for other designs or sizes, you should check out the rest of the bed frame plans. There are a few tips that you should take into account, if you want to get a professional result. Therefore, take accurate measurements and use professional tool when making the cuts or when drilling pilot holes. Align the components at both ends and add waterproof glue to the joints, if you want to create a rigid structure. Round the exposed edges with sandpaper or by using a good router. See all my Premium Plans in the Shop. Made from this plan Full size platform bed frame plans Building a full size platform bed frame Materials A - 2 pieces of 2x6 lumber - 57" long, 2 pieces - 75" long FRAME B - 3 pieces of 2x2 lumber - 75" long CLEATS C - 16 pieces of 1x4 lumber - 54" long SUPPORT SLATS D - 6 piece of 2x4 lumber - 8' long LEGS E - 2 piece of 1x3 lumber - 77 1/2" long, 1 piece - 59" long, 1 piece of 1x2 lumber - 59" long TRIMS 2 pieces of 2x6 lumber - 12 ft 3 pieces of 2x2 lumber - 8 ft 4 pieces of 1x4 lumber - 10 ft 1 piece of 2x4 lumber - 4 ft 3 pieces of 1x3 lumber - 8 ft 1 piece of 1x2 lumber - 8 ft mattress 2 1/2" screws 1 1/4" screws glue stain Tools Tips Use a good miter saw to make the angle cuts Drill pilot holes before inserting the screws Time Related Part 1: Full size bed platform bed plans Part 2: Full size headboard plans How to build a full size platform bed Building the frame of the bed The first step of the woodworking project is to build the frame of the full size bed. As you can notice in the diagram, build the components out of 2x6 lumber. Smooth the cut edges and drill pocket holes at both ends of the side components. Align the edges and insert a few 2 1/2" screws to create rigid joints. Add glue to the joints and remove the excess. Fitting the cleats The next step of the woodworking project is to fit the 2x2 cleats to the bed frame. As you can easily notice in the diagram, we recommend you to drill pocket holes at both ends and to secure them to the frame using 2 1/2" screws. Use a spirit level to make sure the cleats are perfectly horizontal. Attaching the supports slats Continue the project by fitting the 1x4 support slats to the cleats, in order to create a level surface. Place the slats equally-spaced, making sure you leave 1 1/4" between them. Drill pilot holes and insert 1 1/4" screws into the cleats. Fitting the corner legs Build the corner legs for the bed frame out of 2x4 lumber. Cut the leg in a decorative manner and drill pilot holes. Align the component with attention and insert 2 1/2" screws into the bed frame, in order to create rigid joints. Fitting the middle supports Fit 2x4 legs under the middle cleat, in order to support the weight properly and to add rigidity to the bed frame. Drill pocket holes along the top edge of the supports and insert 2 1/2" screws into the cleats. Attaching the trims In order to enhance the look of the platform bed frame, we recommend you to attach trims to the bed frame. Use 1x2 lumber for the top trim and 1x3 lumber for the rest of the trims. Cut the ends of the trims at 45 degrees. Align the trims with great care and lock them into place using 1 1/4" nails. Add glue to the joints and leave no gaps between the components. Full size platform bed frame plans Last but not least, we recommend you to take care of the finishing touches. In order to get a professional result, fill the holes and the gaps with wood filler and let it dry out for a few hours. Check if there are protruding screws and fix this issue, if necessary. Get PDF Plans Thank you for reading our project about full size platform bed frame plans and we recommend you to check out the rest of the projects. Don't forget to SHARE and LIKE our projects with your friends, by using the social media widgets, if you want to help us keep adding free woodworking plans. > So after watching hours of videos and reading tutorials I decided to build a full size bed for my daughter. I must say it was quiet a learning process as I was doing it for the first time and wasn't sure on the type of tools needed for this project. Here is what I bought from HomeDepot :Deck Screws - 1 Box 2.5" and 1 Box 3" (~\$20) Flat Head Screw - Small box 1.5" (~\$4) 8 - 1 x 3 Strip (~\$15) 5 - 2 x 4 Strip (~\$16) Wood Glue - 1 Tube (\$6) Drill/Drive Kit (~\$13) Drill (~\$30) Measuring Tape (~\$14) Spray paint (~\$5) Full size bed dimensions are 75" x 54" and normally wood strips come in 96" in length. So you need to cut them according to the dimension better would be if you get it cut from the store itself. Three - 2x4 - (96" - 75") = 21" (Use for legs) Two - 2x4 - (96" - 54") = 42" (Use for legs) Eight - 1x3 - (96" - 54") = 42" (Use for headboard) Use remaining 2x4 wood strips for legs. You would need 8 legs, build them by joining 10" and 6.5" 2x4 wood strips as shown in the picture. Glue the pieces and screw them with two 2.5" screws. Glue and screw legs onto 75" 2x4s. For sides use 3 legs and for middle support use 2 legs. Glue and screw 54" and 75" 2x4s wood strips using 3" deck screws. Do it from all the sides and then screw 1x3 strips in the gap of 7.5". Use remaining 1x3 strips for building headboard. Take five 40" 1x3 strips and join them with two 53" strips. Cut 20" pieces from the remaining 1x3 and screw them in the gap (as shown the picture). Here you go full size bed in about 6 hours costing around \$80 :) Home House & Components Rooms Bedroom Are you interested in building your own DIY platform bed frame? These platform beds range from ultra-simple to innovative, so check out which one works best for you. 1 / 10 A platform bed sounds even better with storage options for blankets, books and other accessories. Check out this DIY platform bed with storage cubbyholes. This DIY tall platform bed is a fairly complicated project, so note that it will take some time and a circular saw. Photo: Courtesy of Lowes 2 / 10 Looking for a small bed project fit for a toddler or two? These plans show you how to construct simple toddler DIY platform bed frames that are padded with fabric for extra protection and ideal for a small kid's room. The fabric padding takes a little extra time, but otherwise this is an easy DIY bed frame make. Photo: Courtesy of Design Mom 3 / 10 Do you want a classic DIY simple wood bed frame platform bed with sturdy legs and traditional slat mattress support? Try out this model, which has easy instructions and leaves plenty of room for choosing the type of wood and wood stain to match your bedroom. Photo: Courtesy of Shanty-2-Chic 4 / 10 Not a fan of bed legs (tired of losing items underneath)? This beautiful platform DIY bed is made out of basic 2x6 lumber—and no bed legs, giving you a seamless look that combines rustic and modern styles. Photo: Courtesy of Ana White 5 / 10 Looking for a high-rise DIY platform bed with simple slats that you can make in your yard over the weekend? This project will give you exactly what you are looking for if you want a simple queen bed frame with some extra height (maybe for more storage possibilities). Note that edges may need some extra framing or protection, depending on your setup. Photo: Courtesy of Instructables 6 / 10 A DIY platform bed can also be made from reclaimed wood. It's perfect if you have old floorboards (wider is better) or other boards that you would like to put to good use. Photo: Courtesy of Mr. Kate 7 / 10 Are you interested in an extra-sturdy DIY platform bed frame that can hold a lot of weight and last for years? Check out these plans: They require bolt-on wooden legs and add extra support around the frame for a DIY bed that will last. Plus, the estimated cost is around \$30. Here are some ideas if you want to make a headboard. Photo: Courtesy of The House of Wood 8 / 10 Crazy about pallets? This two-tiered pallet-based bed is one of 17 different styles in this collection. You may need to do a fair bit of restoration to get especially rough pallets into shape, but this is still one of the easiest projects, and comes with many variations including some with under-bed lights and storage. Photo: Courtesy of Made 4 Decor 9 / 10 This very solid and beautiful bed frame is perfect for a farmhouse-style bedroom. It's a great project for those who have some woodworking and assembly experience, and want a DIY platform bed frame that looks like it came from an expensive furniture store. That means extra work and materials, but the result is well worth it! Photo: Courtesy of A City Born Love 10 / 10 This floating bed has hidden legs that make the frame look like it's floating above the floor. It's an astounding effect, easy to create, and ideal for modern bedrooms. This DIY bed frame also features a unique built-in nightstand/hidden storage cubby. Photo: Courtesy of My DIY Home Originally Published: December 03, 2018 Add some style to your bedroom by using one of these free DIY platform bed plans to build the bed of your dreams. There are many different styles and sizes for you to choose from, and many include storage that's actually built into the bed frame. They would look great alongside a DIY nightstand, if you're looking for another project. These platform bed plans are good for the confident beginner to the intermediate builder, looking for their next woodworking project. The budget and time it takes will vary depending on what plan you decide to tackle. Not sure on the platform bed style? Here are some other free bed plans and even free plans to help you build a bunk bed for the little ones.
