Simple and Compound Interest Worksheet

In problems 1-3, compare the amount you have if the money were invested at simple interest or invested so that it is compounded annually.

- \$5,000 at 10% for 5 years
- \$2,000 at 12% for 3 years
- \$1,000 at 14% for 30 years

In problems 4-6, compare the amount of simple interest and the interest if the investment is compounded annually.

- \$1,000 at 8% for 5 years
- \$2,000 at 12% for 3 years
- \$5,000 at 12% for 20 years

Fill in the blanks for problems 7-12.

Compounding Period (n)	Principal (P)	Yearly rate (r)	Time (t)	Period rate (r/n)	Number of periods (nt)	Total Amount (A)	Total Interest (I)
7. Annually	\$1,000	9%	5 years				
8. Semiannually	\$1,000	9%	5 years				
9. Quarterly	\$500	8%	3 years				
10. Monthly	\$300	12%	5 years				
11. Quarterly	\$800	12%	90 days				
12. Quarterly	\$1,200	18%	400 days				

Name: _____ Date: _____

Complex or Simple Sentence Worksheet

A complex sentence has an independent clause and a dependent clause. An independent clause is a complete sentence that can stand on its own. A dependent clause is not a complete sentence for it cannot stand on its own.

Dependent clauses start with subordinating conjunctions such as: after, so, because, since, although, even though, before, unless, whenever etc...

Directions: Read each sentence below. Identify each as a complex or simple sentence.

Example A: Because he played well, the boy is happy.

Answer: complex sentence

- I love to read. _____
- We ran home and ate dinner. _____
- After the movie, we all went out for pizza. _____
- Unless he shows, we have to close up the shop. _____
- Let's all take a walk after dinner. _____
- Once I finished lunch, I saw the surprise. _____
- She had a fun birthday party. _____
- Wherever they are, it is far from here. _____
- As I arrived, they all go out of the car. _____
- We didn't hear the sound. _____
- Although she was smart, she didn't understand the problem. _____

Savings after 1 Year

Name: _____ Score: _____

What will your total savings be after 1 year?

\$1,000 principal and a 4% annual interest rate	
\$2,000 principal and a 4% annual interest rate	\$8,000 principal and a 4% annual interest rate
\$11,000 principal and a 2% annual interest rate	\$5,000 principal and a 2% annual interest rate
\$2,000 principal and a 7% annual interest rate	\$2,100 principal and a 7% annual interest rate
\$3,400 principal and a 2% annual interest rate	\$7,100 principal and a 2% annual interest rate
\$2,500 principal and a 6% annual interest rate	\$2,210 principal and a 6% annual interest rate

Copyright www.englishlinx.com

1. _____ If you put \$6.57 into a savings account that earns 4%, how much interest will you receive at the end of eight years?
2. _____ How much interest is earned on a principal of \$9.02 invested at an interest rate of 8% for three years?
3. _____ If the balance at the end of eight years on an investment of \$7.87 that has been invested at a rate of 4% is \$10.39, how much was the interest?
4. _____ If you put \$6.24 into a savings account that earns 5%, how much interest will you receive at the end of four years?
5. _____ How much interest is earned on \$5.43 at 5% for five years?
6. _____ How much interest is earned on a principal of \$2.58 invested at an interest rate of 5% for four years?
7. _____ If you borrow \$5.93 for nine years at an interest rate of 6%, how much interest will you pay?
8. _____ How much interest is earned on a principal of \$4.62 invested at an interest rate of 7% for two years?
9. _____ If the balance at the end of eight years on an investment of \$7.97 that has been invested at a rate of 9% is \$13.71, how much was the interest?
10. _____ How much interest does a \$9.66 investment earn at 10% over eight years?

Year	Rate	Amount
1. \$1000 at 4% for 2 years	4%	\$80.00
2. \$1000 at 4% for 2 years	4%	\$80.00
3. \$1000 at 4% for 2 years	4%	\$80.00
4. \$1000 at 4% for 2 years	4%	\$80.00
5. \$1000 at 4% for 2 years	4%	\$80.00
6. \$1000 at 4% for 2 years	4%	\$80.00
7. \$1000 at 4% for 2 years	4%	\$80.00
8. \$1000 at 4% for 2 years	4%	\$80.00
9. \$1000 at 4% for 2 years	4%	\$80.00
10. \$1000 at 4% for 2 years	4%	\$80.00

Want to be the most interesting person in the room? Well, whether you're introverted or extroverted, it doesn't really matter: There are things one must do to have the kind of captivating conversations that will attract others to your social circle. Before I get to the seven questions that will ignite those conversations, here are three principles you must apply first or you may as well toss in the towel now. Most of us don't have a good internal barometer for knowing when we bore others, since we think we're so fascinating. Take this advice from Scott Adams, author of *How to Fail at Almost Everything and Still Win Big: Kind of the Story of My Life*: Be brief and be positive. Brief: Make a habit of being to the point and not dragging on and on. People who talk slowly, pause a long time before responding, and process their thoughts in mid-sentence will lose the listener faster than you can spell b-o-r-i-n-g. Positive: Stay upbeat in conversation (beware of polarizing topics like religion and politics), and avoid being serious, monotone, or like a bump on a log—show emotions, laugh at people's jokes, smile when they smile, and make light of awkward situations. Another way to tell if you are about to put someone to sleep is to listen for questions. If the other person is not asking you questions, that should clue you in that your conversation is going south; it may be time to cut your story short and ask the other person a question. Several studies published in the Greater Good Science Center seem to agree that curious people have better relationships. The research suggests that curious people connect better, cope better with rejection, and enjoy socializing more. In fact, other people are more easily attracted and feel socially closer to individuals that display curiosity. George Mason University psychologist Todd Kashdan, author of *Curious?*, conducted one of the studies and wasn't surprised by his findings: "Being interested is more important in cultivating a relationship and maintaining a relationship than being interesting; that's what gets the dialogue going. It's the secret juice of relationships," stated Kashdan in Greater Good. Fellow Inc. columnist Rhett Power, co-founder of Wild Creations, says "curiosity drives interest: What does this person think, what makes him 'tick,' how does she do that, what does he want to have happen, how does she view the world? And people with humility understand that they don't have all the answers and that each person they meet, each experience, has something to teach them." It's good to have a few go-to stories you can pull out of your hat when you sense a conversation losing momentum. Have stories you can share that are well-rehearsed, meaning, they've been tested with other audiences and found to be reliably funny, entertaining, informative, or engaging. Scott Adams suggests putting your focus on stories about other people, rather than things, because most of us find human behavior fascinating. You meet someone for the first time, get his or her name, and strike up a conversation. The next thing out of your mouth may be: What's up? What do you do? Where are you from? Booooring. Instead of asking the casual, basic stuff we're all tired of answering, hit 'em up with these great conversational questions, beginning with my No. 1 most favorite question. Note: Some may require you to start with more basic stuff as you build rapport and put someone at ease. And it goes without saying: Return serve by answering these yourself. This is open-ended enough to trigger an intriguing story—a journey to a foreign country, living out of a van while touring in a rock band, getting funded for the startup of your dreams, a special God-given talent used for improving lives, etc. This question puts the conversation on a positive note right off the bat, giving the other person a chance to reflect on something he or she is excited about. This is another great question that invites the speaker to share on a deeper level, which builds momentum and rapport quicker. Obviously, a few casual questions before this one helps set the mood for hearing about a profound moment or transition in that person's life. A book that has made an impact can lead to a more personal and inviting conversation because of the book's life-changing effect. Asking this question will deepen your connection as you understand how the book altered the person's life in some way. It also leads to asking interesting follow-up questions. Asking this is a great way to introspectively draw out a unique story from someone. We all dreamed about being something growing up—a doctor, a police officer, an astronaut, a super hero, and so on. Connect the dots to the present by asking if he or she still has those same aspirations as an adult (including being a super hero!). For me, it's too obvious: Who really killed JFK? Perhaps for the person you just asked, it's "Is there a God?" Whatever the answer—serious, cerebral, funny, or ridiculous—it's interesting enough to clue you in to the other person's interests, values, beliefs, or sense of humor. This is one of those questions I call "peeling the conversational onion." Learning about how people landed in their given profession has layers. It'll tell you what defines them, what motivates them, what they're passionate about, and whether their work is their calling or purpose. It may also trigger a different, more thought-provoking response: Some people aren't happy in their jobs. By asking, you may be in the position to assist or mentor a person through a career or job transition. Did you notice a refreshing pattern in these questions? Perhaps you're not used to it, but you take the initiative and make the conversation about the other person. People love to talk about themselves—if they have something worth talking about that adds value to the conversation. Once they know you're not a wacko, by asking first, they'll appreciate your showing interest. This selfless act of putting the spotlight on someone else makes you the more interesting person in the room. When striking up conversations, try skipping the mundane questions like "What do you do?" Advice blog *Wise Bread* suggests asking things like "What do you get excited about?" Instead, everyone has prepared answers to small talk questions about their job or education, and not everyone really likes talking about them in the first place. To get off script, ask questions that provoke more thought and get people to talk about things they enjoy. A few years ago I sat down to dinner with a new acquaintance while I was visiting Sweden. But the conversation was unlike any other first encounter I'd ever had, and it has changed the nature of "cocktail chat" for me ever since. As she unfolded her napkin and prepared her "elevator speech" describing what she does for a living, I instead opened the conversation with a question that stopped her in her tracks: What excites you? She blinked and looked at me for a while. With each passing moment, I increasingly feared something was lost in translation or I had trodden on culturally sensitive ground. Then her face relaxed and she smiled widely. "Nobody has asked me that before!" she said as she then considered how to answer it. Okay, so "what excites you" might be a bit of a strange question—not to mention mildly suggestive-sounding—but the main idea is that by skipping past the typical question, you get them to think, learn something real about them, and stray away from the boring "what do you do" talk. If they're really interested in what they're doing, the conversation can still lead in that direction—you just avoid the meaningless small talk. Check out *Wise Bread* for some other similar suggestions (some of which are a little "desert island-y"). The best questions to get someone talking are the ones that give them space to say the things they already want to say. And if you're ever in doubt, follow the *FORD* technique. Starting a conversation with a complete stranger can be a little intimidating, and sometimes you... Whether you're a teacher standing in front of a classroom full of kids, or a student struggling with reading comprehension, chances are good you'll need to become very familiar with finding the main idea of a passage of text. Every reading comprehension test, whether it's for school or college admissions (like the SAT, ACT or GRE), will have at least one question related to finding the main idea. Students can learn to understand what they read by practicing with main idea worksheets. These main idea worksheets come complete with two PDF files. The first is a worksheet you can print for distribution in your classroom or for personal use; no permissions are required. The second is an answer key. John-Patrick Morarescu / Getty Images Print the PDF: Main idea worksheet No. 1 Print the PDF: Main idea worksheet No. 1 answers Have students write short paragraph essays, about 100 to 200 words each, on 10 different topics including William Shakespeare, immigration, innocence and experience, nature, the right-to-life debate, social movements, novelist and short story writer Nathaniel Hawthorne, the digital divide, internet regulation, and classroom technology. Each main idea topic provides a brief write-up detailing a specific issue related to an individual—such as Shakespeare's works, which highlighted the value of women in society—or issue. Students can then show their ability to pick out the main ideas in their brief essays. Carl Johann Rann/Getty Images Print the PDF: Main idea worksheet No. 2 Print the PDF: Main idea worksheet No. 2 answers Students will have another chance to practice their skills in finding the main idea and writing about it with 10 more topics, including the physical environment of classrooms, China's growing power, the effect of rain, why male students tend to score higher than female students on math tests, movies, support for U.S. troops, educational technology, copyright and fair-use laws, and how the social environment affects the breeding rate of mares and foals. After allowing students to read the brief write-up about each topic, ask them to write a 100-to-200-word response indicating what they believe to be the main idea. Lan Qu/Getty Images Print the PDF: Main Idea Worksheet No. 3 Print the PDF: Main Idea Worksheet No. 3 answers After reading each write-up, ask students to demonstrate their understanding of the main idea by answering multiple choice questions. To further develop their skills, ask the class to write a few sentences explaining why they chose the answer they selected as well as why the other responses were not correct. The topics covered include the environment, Asperger's syndrome, a school district's expansion plans, students with special needs, and legends.
