It's been sunny and cold here, as it tends to be in the last throes of January. Hunt for bugs and fish as there are several different types of both. Most of all have fun and take things at your own pace! You can choose male, female, or non-binary. The studio's earlier game, Love Spell: Written in the Stars is also part of the Steam Lunar New Year sale. Make sure to harvest fruit, plants, rocks and wood when they finish growing. You'll also find a list of districts (towns) you have built or are in the process of building. And the best way to ensure that you have enough alchemy materials to create seeds is by constantly harvesting items and bringing them back home with you. Go explore with the ever-faithful beast Explore Everywhere! In Grow: Song of the Evertree it pays to go off the beaten track and explore, you will find chests scattered around the environment with goodies inside and caves to explore. This is where you can play around with different Essences and receive a new seed to grow another branch of the Evertree. Add five different types of Essences to the pot until the lines fill up to the top of the pot. You can visit the Evertree branches as many times as you want during a single day and night cycle in the game, so be sure to check the branches often and pet any creatures you encounter. Sounds like a good time for seed shopping! I've been looking to grow some new marigolds this year anyway. Since 2000, Ushi no Tane has been run by a grouchy old lady who happens to be fond of video game agriculture along with three feline helpers: Intern Reba, Intern Captain Bootu, and Intern Hondo Mewnaka. Steam Lunar New Year Sale A new batch of farming game discounts are taking place during the Steam Lunar New Year sale, January 27 until February 3. The website is not officially affiliated, sponsored, endorsed, or employed by the developers of Harvest Moon, Story of Seasons, or River King. He is also used to conducting alchemy to make new seeds to plant on the Evertree, but we will get to that later in this guide. Collect your tools! Tools First of let's take a look at your pocket and your tools. So after previewing and then reviewing Grow: Song of the Evertree, I thought a few hints and tips for new players would help. The devs plan to have both competitive and cooperative modes in multiplayer. In a competitive sense, when multiple players are digging for a resource, the player who hits it last will receive the discovered resource. Change the wall colour and add decorations such as a flower bed or a mailbox outside the house. When you talk to Copperpot and pick Alchemy on the menu, you are shown the Extract screen. So let's begin at the best place, the beginning of the game. Customise your character Customise You can customise your character how you wish by changing their hair, eyes, and body size. I'm intrigued with the idea of working together as farmers and craftspersons to unlock new in-game functions. You can find the preview for Grow here and the review for Grow: Song of the Evertree here. It's up to you to keep them happy, and you do this by decorating the house, fulfilling quests for the residents, and talking to them.
